Memo to File:

Re: Energy Fuels Nuclear
(Charles Martin & Assoc.)
Hillside-Gizmo-Maybe
ACT/037/015

On August 25th, I spoke with a Mr. Roger B. Smith of Energy Fuels Nuclear in Blanding. Mr. Smith explained that they were presently cleaning up the surface and subsurface, drilling a 30" vent hole and preparing for operations. He further said that the mining and reclamation filings would be submitted prior to operations and within 30-60 days.

He also said that they have control of another mine known as the Betty Mine at which no activity is planned for 4-5 months.
